

PROPOSAL 151 – 5 AAC 09.369. Northern District Salmon Fisheries Management Plan.
Consider the catch of non-local salmon as a factor in management of Northern District salmon fisheries, as follows:

5 AAC 09.369 is amended to read:

(b) The department shall manage the Northern District salmon fisheries on the basis of salmon abundance as determined by escapement information and catch-per-unit-effort information **taking into account the percentage of the catch which is not of the targeted river.** The department shall manage each section of the Northern District as specified in this management plan and 5 AAC 09.320.

What is the issue you would like the board to address and why? Effectively manage the Northern Peninsula fishers areas by modifying 5 AAC 09.369.
