

PROPOSAL 169 – 5 AAC 09.200. Description of districts and sections; and 5 AAC 09.206. Use of global positioning system (GPS). Implement global positioning satellite coordinates for all district and section boundaries in the Northern District of the Alaska Peninsula Area, as follows:

That Alaska Department of Fish and Game and/or Fish and Wildlife Protection establish a series of points that can be implemented by regulatory definition so all fishermen can be fish legally within boundaries that can be defined and navigated with modern GPS equipment.

What is the issue you would like the board to address and why? The most offshore boundaries of the Sections of the North Peninsula fishing areas. At present there are no GPS specifications so that Area M fishermen can be confident that they are fishing legally within their Sections.
