

PROPOSAL 223 - 5 AAC 61.114. Special provisions for the seasons, bag, possession, and size limits, and methods and means for Unit 2 of the Susitna River Drainage Area. Prohibit king salmon fishing in Unit 2 if no retention is allowed, as follows:

All King Salmon fishing will be closed in the Parks Highway Streams Of Unit 2 of the Susitna River any time retention of King Salmon is not allowed.

What is the issue you would like the board to address and why? The issue I would like the board to address is that the retention of King Salmon has been denied on the Parks Highway streams in unit two of the Susitna river, yet, catch and release has been allowed. If nothing is done this tactic will increase the period of time until the run is restored and retention allowed.
