UPPER COOK INLET FINFISH  
FEBRUARY 23–MARCH 8, 2017**

**PROPOSAL 71 – 5 AAC 57.120. General provisions for seasons, bag, possession, annual, and size limits, and methods and means for the Kenai River Drainage Area.** Align size restrictions for Dolly Varden and rainbow trout bag limit in the flowing waters of the Kenai River Drainage Area, as follows:

5 AAC 57.120(a)(5) and (6) are amended to read:

(5) Arctic char/Dolly Varden may be taken from

(A) January 1 – December 31, in all flowing waters from the mouth of the Kenai River upstream to Skilak Lake, and the waters of Skilak Lake, **upstream to Kenai Lake, including the flowing waters of the Kenai Lake drainage** [EXCEPT THE WATERS WITHIN A ONE-HALF MILE RADIUS OF THE KENAI RIVER INLET]; bag and possession limit of one fish less than **16** [18] inches in length; Arctic char/Dolly Varden **16** [18] inches or greater in length may not be retained; Arctic char/Dolly Varden caught that are **16** [18] inches or greater in length must be released immediately;

...

(C) **repealed** / /**2017** [JUNE 11 – MAY 1, IN ALL FLOWING WATERS FROM THE WATERS OF SKILAK LAKE WITHIN A ONE-HALF MILE RADIUS OF THE KENAI RIVER INLET, UPSTREAM TO KENAI LAKE, INCLUDING THE FLOWING WATERS OF THE KENAI LAKE DRAINAGE; BAG AND POSSESSION LIMIT OF ONE FISH LESS THAN 16 INCHES IN LENGTH; ARCTIC CHAR/DOLLY VARDEN 16 INCHES OR GREATER IN LENGTH MAY NOT BE RETAINED; ARCTIC CHAR/DOLLY VARDEN CAUGHT THAT ARE 16 INCHES OR GREATER IN LENGTH MUST BE RELEASED IMMEDIATELY];

(6) rainbow/steelhead trout

...

(B) may be taken from January 1 – December 31, in all flowing waters from the mouth of the Kenai River upstream to **Skilak Lake, and the waters of Skilak Lake, upstream to Kenai Lake, including the flowing waters of the Kenai Lake drainage** [AN ADF&G REGULATORY MARKER LOCATED APPROXIMATELY ONE MILE UPSTREAM FROM THE MOUTH OF THE LOWER KILLEY RIVER, AND FROM JUNE 11 – MAY 1 IN THAT PORTION OF THE KENAI RIVER FROM AN ADF&G REGULATORY MARKER LOCATED APPROXIMATELY ONE MILE UPSTREAM FROM THE MOUTH OF THE LOWER KILLEY RIVER UPSTREAM TO SKILAK LAKE AND THE WATERS OF SKILAK LAKE, EXCEPT THE WATER WITHIN A ONE-HALF MILE RADIUS OF THE KENAI RIVER INLET]; bag and possession limit of one fish less than **16** [18] inches in length; rainbow/steelhead trout **16** [18] inches or greater in length may not be retained; rainbow/steelhead trout caught that are **16** [18] inches or greater in length must be released immediately;

(C) **repealed** / /**2017** [MAY BE TAKEN FROM JUNE 11 - MAY 1, IN ALL FLOWING WATERS UPSTREAM OF SKILAK LAKE, AND THE WATERS OF SKILAK LAKE WITHIN A ONE-HALF MILE RADIUS OF THE KENAI RIVER

INLET; BAG AND POSSESSION LIMIT OF ONE FISH LESS THAN 16 INCHES IN LENGTH; RAINBOW/STEELHEAD TROUT 16 INCHES OR GREATER IN LENGTH MAY NOT BE RETAINED; RAINBOW/STEELHEAD TROUT CAUGHT THAT ARE 16 INCHES OR GREATER IN LENGTH MUST BE RELEASED IMMEDIATELY];

**What is the issue you would like the board to address and why?** The size (total length) of the one fish Dolly Varden bag limit Kenai River anglers may retain differs by river section. This would create the same size restriction for all areas of the Kenai River Drainage Area. Aligning regulations for consistency will improve public communication, decrease regulatory complexity and increase public understanding of the sport fishing regulations in the Kenai River Drainage Area.

**PROPOSAL 72 – 5 AAC 57.120. General provisions for seasons, bag, possession, annual, and size limits, and methods and means for the Kenai River Drainage Area.** Amend general provisions for lakes and ponds of the Kenai River drainage to restore winter ice fisheries for landlocked coho salmon less than 16 inches in length, as follows:

5 AAC 57.120(a)(4) is amended to read:

(4) salmon, other than king salmon,  
(A) 16 inches or greater in length, as follows:

...

(ii) coho salmon may be taken in the Lower Section only from July 1 – November 30 and in the Middle **Section** [AND UPPER SECTIONS] only from July 1 – October 31; a person after taking and retaining a bag limit of coho salmon 16 inches or greater in length from the Kenai River may continue to sport fish only from the Soldotna Bridge upstream to the ADF&G regulatory markers at the outlet of Skilak Lake;

...

(B) less than 16 inches in length [MAY BE TAKEN FROM JANUARY 1 – DECEMBER 31]; bag and possession limit of 10 fish, **may be taken as follows:**

**(i) sockeye, pink, and chum salmon may be taken from January 1 – December 31;**

**(ii) coho salmon may be taken in the Lower Section only from July 1 – November 30 and in the Middle Section only from July 1 – October 31, except that coho salmon may be taken in lakes and ponds, excluding Skilak Lake, from January 1 – December 31;**

**What is the issue you would like the board to address and why?** Select lakes in the lower and middle section of the Kenai River Drainage Area can become temporarily landlocked from year to year between high water events. Under these circumstances the typical life history of coho salmon is interrupted to the extent that the fish do not migrate to sea and remain to become resident freshwater

fish. Historically, coho salmon fishing season was open year round and the public harvested these fish during the winter while fishing through the ice. Changes to coho salmon fishing seasons for the Kenai River precluded the harvest of coho salmon less than 16 inches during the winter in these select lakes. Changing the regulation will allow harvest of landlocked coho salmon during the winter.

**PROPOSAL 73 – 5 AAC 56.122. Special provisions for the seasons, bag, possession, and size limits, and methods and means for the Lower Section of the Kenai River Drainage Area.**

Align the Swanson River rainbow trout spawning closure with the proposed Kenai River drainage rainbow trout spawning closure start date, as follows:

5 AAC 56.122(a)(11)(B) is amended to read:

(11) Swanson River drainage:

...

(B) flowing waters, from **June 11 – April 30** [JUNE 15 – APRIL 14], are open to sport fishing, except for king salmon;

**What is the issue you would like the board to address and why?** The Alaska Department of Fish and Game submitted this suite of proposals to provide the board an opportunity to review Kenai River sport fishing regulations and consider changes to simplify and align regulations. Nearly all existing regulations for dates to trigger general or special provisions to sport fish regulations are at the first, last or middle day of a month. The purpose is to create regulations: 1) with consistent dates that encompass biological concerns and 2) that are easily understood by the public. Regulations have been adopted in the Kenai River Drainage over the years for various fisheries based on biological as well as social issues. In many cases dates to implement or discontinue regulations for one fishery, do not align with regulations for another fishery in the same area. Over time this creates regulations that are disjointed, overly complex, and not implicit to the public. These proposals identify regulations that, taken as a whole, would align dates and waters to simplify regulations without impacting fishery management objectives. Aligning regulations for consistency will improve public communication, decrease regulatory complexity and increase public understanding of the sport fishing regulations in the Kenai River Drainage Area.

5 AAC 57.121(3) is amended to read:

(3) a person may not sport fish from a boat

- ... (B) from **May 1 – July 31** [JANUARY 1 – JULY 31], in the following waters:
- ... (C) from **May 1** [MAY 15] until the end of the king salmon season, or July 31, whichever is later, in the following waters:
- ... (D) from **May 1 – July 31** [JANUARY 1 – JULY 31], in that portion of the Kenai River from an ADF&G regulatory marker located approximately three-quarters of a mile downstream from the mouth of the Lower Killey River, upstream to an ADF&G regulatory marker located approximately one mile upstream from the mouth of the Lower Killey River;

**PROPOSAL 75 - 5 AAC 57.121. Special provisions for the seasons, bag, possession, and size limits, and methods and means for the Lower Section of the Kenai River Drainage Area.**  
 Align dates anglers are prohibited from fishing from boats with rainbow trout closure, as follows:

**Change 5 AAC 57.121 (3) (A) and 5 AAC 57.121 (3) (D) as follows:**

- 5 AAC 57.121 (3) a person may not sport fish from a boat
  - (B) from **May 2** [JANUARY 1] - July 31, in the following waters:
  - (D) from **May 2** [JANUARY 1] - July 31, in that portion of the Kenai River from an ADF&G regulatory marker located approximately three-quarters of a mile downstream from the mouth of the Lower Killey River, upstream to an ADF&G regulatory marker located approximately one mile upstream from the mouth of the Lower Killey River:

**What is the issue you would like the board to address and why?** The current regulations for three sections of the Kenai River currently restrict sport fishing from a boat from January 1-July 31. There does not appear to be any biological reason for these restrictions because sport fishing from shore for rainbow trout is allowed and king salmon are not present in the Kenai River until May. Changes to these regulations would not change the biological protections for king salmon or spawning rainbow trout. Aligning the proposed closure dates to be consistent with the rainbow trout closure dates, which are currently May 2 - July 31, would provide the same protections to spawning rainbow trout while simplifying the regulations.

Over time this created regulations that are disjointed, overly complex, and not easily understood by the public. These proposals identify regulations that, taken as a whole, would align dates and waters to simplify regulations without impacting fishery management objectives. Aligning regulations for consistency will improve public communication, decrease regulatory complexity and increase public understanding of the sport fishing regulations in the Kenai River Drainage Area.

**PROPOSAL 80 – 5 AAC 57.121. Special provisions for the seasons, bag, possession, and size limits, and methods and means for the Lower Section of the Kenai River Drainage Area.; 5 AAC 57.122. Special provisions and localized additions and exceptions to the seasons, bag, possession, and size limits, and methods and means for the Middle Section of the Kenai River Drainage Area.; and 5 AAC 57.123. Special provisions for the seasons, bag, possession, and size limits, and methods and means for the Upper Section of the Kenai River Drainage Area.** Align gear restrictions for Kenai River tributaries, as follows:

5 AAC 57.121(1) is amended by adding a new subparagraph to read:

(1) sport fishing gear restrictions:

**(K) in all tributaries to the Lower Section, only one unbaited, single-hook, artificial lure, with a gap between point and shank of three-eighths inch or less, may be used;**

5 AAC 57.122(4)(G) is repealed:

(4) the following sport fishing gear restriction apply:

(G) **repealed** / **2017** [IN HIDDEN LAKE CREEK, ONLY ONE UNBAITED, SINGLE-HOOK, ARTIFICIAL LURE MAY BE USED];

5 AAC 57.123(4)(C) is amended to read:

(4) from January 1 – December 31,

...  
(C) in the flowing waters of the Kenai Lake drainage, including waters of Kenai Lake within one-quarter mile radius of all inlet streams, only one unbaited, single-hook, artificial lure, with a gap between point and shank of three-eighths inch or less, may be used;

**What is the issue you would like the board to address and why?** The Alaska Department of Fish and Game submitted this suite of proposals to provide the board an opportunity to review Kenai River sport fishing regulations and consider changes to simplify and align regulations. Nearly all existing regulations that have dates which trigger general or special provisions to sport fish regulations reference the first, last or middle day of a month. The purpose is to create regulations 1) with consistent dates that encompass biological concerns, and 2) that are easily understood by the public. Regulations have been adopted in the Kenai River Drainage Area over the years for various fisheries based on biological as well as social issues. In many cases dates that start or discontinue regulations for one fishery do not align with regulations for another fishery in the same area. Over time this created regulations that are disjointed, overly complex, and not easily understood by the public. These proposals identify regulations that, taken as a whole, would align dates and waters to simplify regulations without impacting fishery management objectives. Aligning regulations for consistency will improve public communication, decrease regulatory complexity and increase public understanding of the sport fishing regulations in the Kenai River Drainage Area.

**PROPOSAL 81 – 5 AAC 56.122. Special provisions for the seasons, bag, possession, annual, and size limits, and methods and means for the Kenai Peninsula Area.** Create consistent rainbow/steelhead trout regulations in the Kasilof River above and below the Sterling Highway Bridge and amend the open season date for Tustumena Lake tributaries to protect spawning rainbow/steelhead trout, as follows:

5 AAC 56.122(a)(8)(B)(vii) is repealed:

(8) Kasilof River drainage, excluding Crooked Creek and Tustumena Lake and its tributaries;

...  
(B) the following special provisions apply in that portion downstream of the Sterling Highway Bridge:

...  
(vii) repealed / 2017 [RAINBOW/STEELHEAD TROUT MAY NOT BE POSSESSED OR RETAINED; RAINBOW/STEELHEAD TROUT CAUGHT MUST BE RELEASED IMMEDIATELY; A PERSON MAY NOT REMOVE A

RAINBOW/STEELHEAD FROM THE WATER BEFORE RELEASING THE FISH];

5 AAC 56.122(a)(8) is amended by adding a new subparagraph to read:

**(D) rainbow/steelhead trout may not be possessed or retained; rainbow/steelhead trout caught must be released immediately; a person may not remove a rainbow/steelhead from the water before releasing the fish;**

5 AAC 56.122(a)(12)(B) is amended to read:

(12) Tustumena Lake and its tributaries:

(B) except as specified in (A) of this paragraph, the tributaries of Tustumena Lake are open to sport fishing only from **June 11 – April 30** [JUNE 11 – MAY 1];

**What is the issue you would like the board to address and why?** Align rainbow/steelhead trout regulations in the Kasilof River drainage by creating the same regulation above and below the Sterling Highway Bridge. In addition, this regulation changes the open season for rainbow/ steelhead trout in tributaries to align with the open season in the Kenai River Drainage Area.

**PROPOSAL 82 – 5 AAC 56.122. Special provisions for the seasons, bag, possession, annual, and size limits, and methods and means for the Kenai Peninsula Area.** Amend Kasilof River early-run king salmon possession requirements, as follows:

5 AAC 56.122(a)(8)(A)(iii) is amended to read:

(8) Kasilof River drainage, excluding Crooked Creek and Tustamena Lake and its tributaries:

(iii) a person may not possess a king salmon that has been filleted, mutilated, or otherwise disfigured in a manner that prevents the determination that the fish is a hatchery king salmon, until the fish is permanently offloaded from the vessel if the fish was taken from a vessel **and has moved more than 100 yards away from waters open to sport fishing for king salmon in the Kasilof River drainage** or permanently transported away from the fishing site if the fish was taken from the riverbank **and has moved more than 100 yards away from waters open to sport fishing for king salmon in the Kasilof River drainage;**

**What is the issue you would like the board to address and why?** This proposal supports enforcement of regulations that prohibit the harvest of naturally-produced king salmon where only

hatchery-produced king salmon may be retained. It creates a regulation for the Kasilof River that is identical to existing regulations in other waters of the Kenai Peninsula that are stocked by the Alaska Department of Fish and Game.

**PROPOSAL 83 – 5 AAC 56.120. General provisions for seasons, bag, possession, annual, and size limits, and methods and means for the Kenai Peninsula Area; and 5 AAC 57.121. Special provisions for the seasons, bag, possession, and size limits, and methods and means for the Lower Section of the Kenai River Drainage Area.** Repeal gear regulations for northern pike, as follows:

5 AAC 56.120(7) is repealed:

(7) **repealed** / / **2017** [NORTHERN PIKE MAY BE TAKEN FROM JANUARY 1 – DECEMBER 31; NO, BAG, POSSESSION, OR SIZE LIMIT; NORTHERN PIKE MAY BE TAKEN

(A) NORTHERN PIKE MAY BE TAKEN BY SPEAR AND BOW AND ARROW; THE ARROW MUST HAVE A BARBED TIP AND BE ATTACHED BY A LINE TO THE BOW; FOR THE PURPOSES OF THIS SUBPARAGRAPH, ‘BOW’ MEANS A LONG BOW, RECURVE BOW, COMPOUND BOW, AND CROSSBOW;

(B) WITH TWO HOOKS PER LINE WHEN FISHING THE ICE AND IF BOTH HOOKS ARE ATTACHED TO THE SAME SINGLE PIECE OF BAIT];

5 AAC 57.121(1)(I) is repealed:

(1) sport fishing gear restrictions:

...

(I) **repealed** / / **2017** [IN MACKAY LAKES, DERKS LAKE, SEVENA LAKE, UNION LAKE, AND THE UNNAMED LAKES ON TOTE ROAD, FIVE LINES MAY BE USE TO FISH FOR NORTHERN PIKE THROUGH THE ICE; ALLOWABLE GEAR IS LIMITED TO STANDARD ICE FISHING GEAR AS SPECIFIED IN 5 AAC 57.120(9)(B); FISHING GEAR MUST BE CLOSELY ATTENDED AS SPECIFIED IN 5 AAC 75.033; ALL OTHER SPECIES OF FISH CAUGHT MUST BE RELEASED IMMEDIATELY];

**What is the issue you would like the board to address and why?** Northern pike regulations on the Kenai Peninsula are no longer necessary due to the Alaska Department of Fish and Game’s successful eradication program. Existing regulations may allow anglers to claim they are fishing for pike in lakes subjected to general provisions, which has the potential to become a conservation concern because other species may be harvested. The remaining unnamed lakes on Tote Road can be managed by emergency order, prior to eradication.
