

PROPOSAL 83 – 5 AAC 85.045. Hunting seasons and bag limits for moose. Change the antler restrictions for moose hunting in Unit 16A as follows:

Proposed solution: One bull with spike-fork or three brow tines on at least one side.

What is the issue you would like the board to address and why? Change the Unit 16A antler restrictions to spike-fork or three brow tines on at least one side. Do away with the 50-inch rule. The reason is too many illegal bulls are being taken with the 50-inch rule. They are not 50 inches after people shoot and measure the spread. This should be a statewide regulation. In areas with four brow tines it should read four not three.
