

PROPOSAL 105

5 AAC 92.123. Intensive Management Plans VII. Authorize predator control for wolf and bear in Unit 19A as follows:

Enact predator control for both wolf and bear within Unit 19A. Please substitute appropriate language or words.

What is the issue you would like the board to address and why? We would like predator control, bear and wolf, authorized for all of Unit 19A. We are still rebuilding our moose population and local area residents have expressed a desire to participate in this program in order to stabilize the predator population.

PROPOSED BY: Central Kuskokwim Fish & Game Advisory Committee (EG-F19-103)
