

PROPOSAL 22

5 AAC 85.025 Hunting Seasons and bag limits for caribou.

Extend the season for taking cow caribou in Unit 23 Remainder as follows:

Extend the cow caribou hunting season in Unit 23 Remainder as follows:

September 1 through **April 15** [MAR. 31]

What is the issue you would like the board to address and why? We have been and continue to experience climate change as all fish and wildlife are migrating earlier than normal and staying later than usual. For this reason, we request that the cow season in Unit 23 Remainder be extended to April 15 from March 31.

PROPOSED BY: Northern Seward Peninsula Fish & Game Advisory Committee (EG-F19-073)
