

PROPOSAL 90

5 AAC 92.057. Special provisions for Dall sheep and mountain goat drawing permit hunts.

Allocate up to 25% of nonresident drawing tags for sheep in the Tok Management Area to second degree kindred relatives as follows:

Limit second degree of kindred to "up to 25%" of the possible nonresident Tok sheep tags that they can draw.

What is the issue you would like the board to address and why? The number of second degree of kindred (2DK) that are drawing the very few nonresident sheep tags within the Tok Management Area. Over the last couple of years, the 2DK are drawing almost 50% of the nonresident sheep tags.
