

PROPOSAL 131

5 AAC 92.210. Game as animal food or bait.

Allow the use of game bird wings and backs to be used for trapping bait as follows:

I recommend that bird wings of all game birds including swan, geese, and cranes including the humerus, radius and ulna, and the meat of the humerus radius and ulna be allowed for other human uses such as trapping bait statewide. The back and the meat of the back should also be used for other human uses like trapping.

What is the issue you would like the board to address and why? I would like to be able to use all bird wings and backbones from swan, cranes, and geese for trapping bait statewide. Bird wings and carcasses, including the backbone, have a long historical use for trapping, and I would like to be able to continue that use. I feel it is more appropriate to use natural baits rather than bring a bunch of trash into the wilderness like compact discs (CDs) and other shiny baubles.
